Violation of Stop Work Order	\$100.00 (per day)	\$100.00 (per day)	

¹ A “Vested Member” is landowner in the District who has paid a one-time “Capitalization Fee.” The sewer system now has sufficient capacity to connect all Vested Members.

² A non-Vested Member has the right to connect to the sewer system provided there is sufficient capacity.

³ A “Capitalization Fee” is a one-time payment that provided the initial capital to build the sewer system. A non-vested Member wishing to connect must pay a Capitalization Fee that reflects the current depreciated value of the sewer system. The depreciated value is adjusted annually.

⁴ The inspection deposit must be posted at time of permit application.
